Foreword	v
Introduction.....	vii
1 Scope	1
2 Normative references	1
3 Terms and definitions.....	4
4 Conformity with this part of B65.....	11
5 Risk assessment.....	11
6 Guarding of significant hazards.....	11
6.1 General	11
6.2 Guards	12
6.3 In-running (in-going) nips.....	16
6.4 Guarding in-running nips	17
6.5 Interlocks.....	20
6.6 Hold-to-run controls	23
6.7 Other safeguarding measures	24
6.8 Guarding reel unwinding, rewinding and transport devices	25
6.9 Threading of web material.....	28
6.10 Feeding units, delivery units (pile lifting and lowering devices).....	28
7 Requirements for protection against other hazards	33
7.1 General	33
7.2 Fire and explosion	33
7.3 Electrical equipment.....	34
7.4 Working platforms, access stairs, passageways and raised workplaces	36
7.5 Stability.....	40
7.6 High contact temperatures.....	41
7.7 Noise.....	41
7.8 Radiation hazards	41
7.9 Stationary knives	42
7.10 Rotary tools.....	43
7.11 Transport and storage of hazardous tools.....	43
7.12 Protruding machine parts.....	43
7.13 Handwheels and cranks	43
7.14 Routine handling of heavy machine parts	43
7.15 Oxidizers, incinerators or thermal cleaning plants	44
7.16 Protection against crushing and shearing hazards	44
7.17 Contact with hazardous substances	45
8 Release from hazardous situation	45
9 Control zones	45
9.1 General	45
9.2 Purpose of zone configuration	46
9.3 Motion-control stations in control zones	46
10 Controls	47
10.1 General	47
10.2 Manual control devices	47
10.3 Initiating machine motion.....	55
10.4 Hold-to-run controls	55
10.5 Two-hand controls	55
10.6 Electro-sensitive protective devices	56

10.7	Pressure-sensitive mats, pressure-sensitive bumpers, trip devices	56
10.8	Braking devices and clutches	56
11	Control stations.....	57
11.1	Motion-control stations	57
11.2	Remote access	58
12	Control systems	62
12.1	Hydraulic, pneumatic, electric and electronic control systems	62
12.2	Electronic adjustable speed drives	63
12.3	Cut-off of main energy source	63
12.4	Residual-pile monitoring systems	63
12.5	Unobserved unguarded hazard zones	64
12.6	Cableless controls	64
12.7	Additional requirements for hand-fed machines	64
13	Ergonomics and labelling of indicators and actuators	65
14	Signals and warning devices	65
14.1	General.....	65
14.2	Audible warning system	65
14.3	Area-light warning system	68
15	Safety signs and labels.....	68
15.1	General.....	68
15.2	Specific requirements for machine markings.....	69
16	Contents of instruction handbook.....	69
16.1	General.....	69
16.2	Machines using flammable liquids	70
16.3	Machines with cutting knives.....	70
16.4	Handling heavy machine parts	71
16.5	Machines with automatic paper loading.....	71
16.6	Residual risks using ESPDs.....	71
16.7	Pile turners and reel turners	71
16.8	Pile carriers	71
16.9	Residual risk for hold-to-run speeds of above 10 m/min under two-hand control	71
16.10	Use of stroboscopes.....	71
	Annex A (informative) Risk analysis relating to the pitch angle of access stairs	72
	Annex B (informative) Noise	74
	Annex C (normative) Area-light warning system.....	76
	Annex D (informative) Example layout of instruction handbooks	78
	Annex E (normative) Lockout/tagout, minor servicing and alternative personnel protection.....	80
	Annex S (normative) Supplement to B65-1 — Additional U.S. requirements, including deviations from ISO 12643-1:2009.....	83
	Bibliography.....	90
